Oregon State University brand guidelines recognize the official colors above. Beaver Orange, Paddletail Black, and Bucktooth White are our primary colors, and the others colors serve as a robust pallet of secondary colors. While the primary colors can be used interchangeably and still be accessible for people with certain disabilities, it is important to design with accessibility in mind. To ensure accessibility when using secondary colors as text (or background for text) please use this chart to determine what colors can be used together and what color combinations to avoid.
